

PLANT NVQ'S

An NVQ is required to achieve a Blue CPCS card.

This OSAT (On Site) route allows your Operator to achieve their NVQ quickly and on-site, using the plant they are familiar with.

This NVQ can be achieved by following these steps:

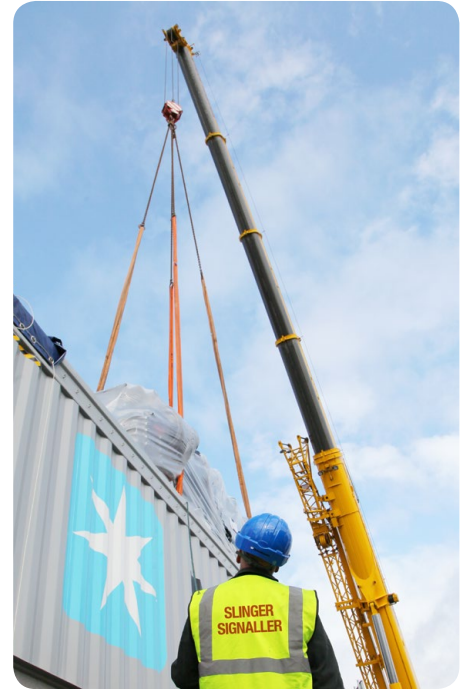

1. Employer/Individual provides details to centre to arrange appointment at centre and NVQ registration.
2. Learner visits centre and liaises with assessor to gather evidence for the NVQ portfolio
3. On-site assessment is conducted by Assessor to gather evidence and complete the NVQ.

Available for:

- DUMPER • EXCAVATOR • RIDE ON ROLLER • TELEHANDLER • MEWP • SLINGER/SIGNALLER • TRACTOR
- DOZER
