

Course Overview

Working at Height Awareness

Number of Candidates: 1 – 20

Course Duration: 1 day

Course Outcome: Certificate

Introduction

This Working at Height training course is relevant to persons who will work at height, or may be exposed to working at height, or need an awareness to ensure others are safe e.g. site supervisors and managers.

This programme is designed for any person who may be required to work or supervise others working at height, or who requires familiarisation with the associated regulations.

Aims & Objectives

To course aims to provide training in good practice for everyone who works at height, in line with the Work at Height Regulations. The course shows operatives how to understand and follow the hierarchy for managing risk from work at heights and to take steps to avoid, prevent or reduce risks.

Course Delivery

This course is delivered through classroom-based tutorials and demonstrations. It includes a theory exercise in the inspection and selection of equipment.

Locations

The course can take place at ITS PLANT TECH or can be delivered on your premises or a location suitable for you.

Certification

ITS Plant Tech Ltd accredited certificate

Candidate Eligibility/Entry Requirements

It is important that all candidates have a good understanding of spoken and written English.

Additional Information
